27. Agreement: To be returned to Sacred Heart Primary School
1. Appropriate Use of Resources
Information Communication Technology (ICT) is a wonderful tool for learning. The use of the ICT however, is a privilege, not a right and inappropriate use could result in the loss of this privilege. The Agreement applies to all devices that access the Internet and/or store information electronically.

2. Damage
Vandalism or damage to ICT, either deliberate or through neglect will result in cancellation of all privileges and the possibility of replacing damaged items. Vandalism is defined as any malicious attempt to harm or destroy equipment or data of another user, Primary School ICT hardware and software and computing rooms. This includes the transmission of computer viruses, theft of hardware and software.

3. Accessing Inappropriate Material
Students will not use the ICT to access material that is inappropriate, profane or obscene (pornography) that advocates illegal acts, or that advocates violence or discrimination towards other people. If a student mistakenly accesses inappropriate material, she/he should immediately inform the supervising teacher. This will protect the student against a claim that such access was intentional.

4. Chat Rooms/ Newsgroups/ Messaging
Students are not permitted to use instant messaging or social networking sites during the school day.

5. Good Cyber-Citizenship
- Students are expected to abide by the generally accepted rules of network etiquette when using Emails or other messaging systems. These include:
  - Being polite. Do not get abusive in your messages to others.
  - Use appropriate language. Do not swear, or use any inappropriate language.
  - Not revealing your personal address or phone number, or the address or phone number of the Primary School or members of the Primary School community.
  - Not using the network in such a way to cause disruption or harm to other users.
  - Not using Primary School resources to spam or mass mail others.
  - Not injuring the reputation of the school or those within the school community.
  - Not using the internet to harass or bully others.
  - Not using the internet to impersonate someone.
  - Not use or knowingly access inappropriate digital images, audio and video.
6. Occupational Health and Safety
   ● When using the MacBook, place it on a table.
   ● Never place the MacBook on your lap, as the transmission from the MacBook may be harmful to sensitive organs.
   ● Sit at the correct height to allow your elbows to be bent at right angles and your wrists straight. Your hands and wrist must clear the desk and keyboard, with only your fingers touching the keys. Take a break every 30 minutes of use.

7. Storage of Work
Students are responsible for the careful storage and backing up of their own work. The Primary School accepts no responsibility for files lost or altered due to problems with our infrastructure or hardware. Hard drives (MacBook) or cloud storage (Google Drive) may be treated like school lockers in that Staff may review files and communications to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files stored on their MacBook are private.

8. No Expectation of Privacy
The school retains control, custody and supervision of all computers, networks and Internet services owned or leased by the school. The school reserves the right to monitor all computer and Internet activity by students.
Students have no expectation of privacy in their use of school computers, including email and stored files.

9. Cyberbullying and Defamation
The Police Force defines cyberbullying as ‘the use of email, instant messaging, chat rooms, pagers, cell phones or other forms of information technology to deliberately harass, threaten, or intimidate someone.’ Australian defamation law dictates that a person is guilty of defamation when: ‘a person who 'publishes' and assertion of fact or a comment that:’
Injures - or, importantly, is 'likely' to injure -the personal, professional, trade or business reputation of an individual or a company:
Exposes them to ridicule; or
Cause people to avoid them.
SACRED HEART recognises that the majority of cyberbullying cases occur outside of its controlled network. However to ensure that students and parents are aware of cyberbullying and the correct actions to take, this policy includes protection for its own name, crest, students and teacher.

If a case of cyberbullying affects a student outside of the school's boundaries the following course of action should be taken:

● The student immediately informs his/her parents/carers;
● The student immediately informs the school;
● The abuse is reported to the website owner or webmaster;
● If the concern is considered very serious then the police should be informed immediately.

Updated: March 2016
A case of cyberbullying/defamation against SACRED HEART staff member or the Primary School occurs if:

- A video or image of a SACRED HEART Primary School staff member is placed on a public website without the permission of the staff member;
- Information about a staff member including their name is placed on a public website without the permission of the staff member;
- The SACRED HEART name or crest is published on a public website without the written permission of the Principal.

The Primary School will not tolerate students using ICT to bully or harass others. Students found engaging in such activities will be dealt with in the strongest possible terms.

Students will not download large files unless it is absolutely necessary, Check with your teacher before proceeding. Each year level will have a specified amount that students in that year level can download.

The Internet is a rich and valuable source of information for education. Inappropriate materials are available on the Internet and are strictly prohibited. Students must not access, display, or store this type of material. Students are required to give proper credit to all Internet sources used in academic assignments, whether quoted or summarized. This includes all forms of media on the Internet, such as graphics, movies, music, and text. Plagiarism includes the use of any information obtained from the Internet that is not properly cited. Plagiarism of Internet resources will be treated in the same manner as any other incidences of plagiarism.

If a student accidentally accesses a website that contains obscene, pornographic or otherwise offensive material, he/she is to notify a teacher or ICT Coordinator as quickly as possible so that such sites can be blocked from further access. This is not merely a request; it is a responsibility.

24. Consequences

Such consequences could include the loss of privileges on a Macbook, the loss of the use of the computer for an amount of time determined by the administration and members of the Technology Department, possible disciplinary action, and possible legal action.

Computers with illegal or inappropriate software or materials on them will be reformatted or “reimaged.” This amount may be increased for repeat violations. In the case of repeated MacBook abuse and/or damages, the school has the right to revoke the use of the school’s MacBook.

Students are to report any known violations of this ICT Outline and Expectations Policy to appropriate administrative staff members. Random checks of student MacBooks will be conducted throughout the year to ensure that these policies are being followed.
