RATIONALE

Sacred Heart Catholic Parish Primary School has a commitment to child safety. It also is committed to the wellbeing and safety of all its students and staff. This is supported by a whole school approach to cybersafety and student wellbeing. Therefore, Sacred Heart Catholic Parish Primary School’s eSmart policy encompasses agreements, procedures and acceptable behaviours related to cybersafety, cyberbullying, cyber-risks, use of ICT (Information and Computer Technology) and mobile devices. Sacred Heart Catholic Parish Primary School’s eSmart policy is underpinned by ‘The National Safe Schools Framework’s’ vision that “All Australian schools are safe, supportive and respectful teaching and learning communities that promote student well-being.” NSSF, 2013.

Sacred Heart Catholic Parish Primary School is developing the eSmart policy using resources and information from the Victorian Department of Education and Early Childhood Development, Australian Council Media Authority (ACMA) and through guidance from the eSmart program an initiative of the Alannah and Madeline Foundation.

AIM

The policy seeks to provide common consensus of definitions related to cybersafety and cyberbullying. It states how Sacred Heart Catholic Parish Primary School reports and deals with incidents relating to cyberbullying and where and how cybersafety is taught within the school curriculum. The policy also provides a summary of Staff and Student User Agreements, School Cybersafety rules from Foundation to Year 6.

POLICY

Sacred Heart Catholic Parish Primary School believes that all forms of bullying are unacceptable.

The students and staff have a shared understanding of the evidence informed definitions of bullying, cybersafety, cyber-risk and cyberbullying.

Sacred Heart Catholic Parish Primary School is in mutual agreement of the evidence-based definition of Bullying and Cyber-Bullying taken from “Building Respectful and Safe School-State Government of Victoria” - DEECD, 2009.
DEFINITION OF COMMON TERMS

BULLYING
“Bullying is when someone, or a group of people, deliberately upset or hurt another person or damage their property, reputation or social acceptance **on more than one occasion.** There is an imbalance of power in incidents of bullying, with the bully or bullies having more power at the time due to age, size, status or other reasons.”

“Bullying may occur because of perceived differences such as culture, ethnicity, gender, sexual orientation, ability or disability, religion, body size and physical appearance, age or economic status. Bullying may be motivated by jealousy, distrust, fear, misunderstanding or lack of knowledge. It can continue over time, is often hidden from adults and will probably continue if no action is taken.” - DEECD 2009

TYPES OF BULLYING:
There are four broad types of bullying:
1. Direct physical bullying: includes hitting, kicking, tripping, pinching and pushing or damaging property.
2. Direct verbal bullying: includes name-calling, insults, teasing, intimidation, blackmail, threatening, homophobic or racist remarks, or verbal abuse.
3. Indirect bullying: is often harder to recognise and can be carried out behind the bullied person’s back. It is designed to harm someone’s social reputation and/or cause humiliation. Indirect bullying includes: lying and spreading rumours, playing nasty jokes to embarrass and humiliate, mimicking, encouraging others to socially exclude someone, damaging someone’s social reputation or social acceptance.
4. Cyberbullying: is direct verbal or indirect bullying behaviours using digital technologies. This includes harassment via a mobile phone, setting up a defamatory personal website or deliberately excluding someone from social networking spaces. - DEECD, 2009

CYBERSAFETY
“Cyber safety refers to the protection of children when they are online. Cyber safety information, addresses online, dangers children, e.g. exposure to illegal or inappropriate material, stranger danger, identity theft, invasion of privacy, harassment and cyberbullying. We are not talking about computer security, spam or viruses”. - ACMA, 2013

CYBER-RISKS
Cyber-risks are factors that contribute to or provide a platform for cyber-bullying or harm. These include unsupervised use of the internet, social media platforms, such as, Snapchat, Facebook, Instagram, Twitter and online marketing campaigns that promise prizes in return to personal details. Other cyber-risks include stranger danger, inadvertently downloading viruses, hacking, insecure passwords and posting personal photos online. Tools, such as, firewalls, filters and anti-virus software may help reduce cyber-risks.
CURRICULUM
At Sacred Heart Catholic Parish Primary School, Cybersafety and Respectful relationships are explicitly taught across all year levels. The school uses the “Solving the Jigsaw” well-being model, the six school rules, and eSafety.gov education resources from Foundation-6 and the Victorian Curriculum. The school also participates in cross-level teaching and promotion of cybersafety and participates in “Harmony Day” and has a “buddy” program for Foundation and Year 6 students. The school also holds cybersafety information nights for parents, ongoing Professional Development for staff and in-school presentations/guest speakers for Years 3-6 and teachers hold a parent meeting to discuss acceptable and unacceptable behavior online.

CYBERBULLYING AND BULLYING MANAGEMENT PROCESS
Sacred Heart Catholic Parish Primary School has developed a process for reporting, responding to, and collecting data in relation to cyberbullying/bullying and isolated incidents. This is in the form of a flow-chart. Staff and students have been explicitly taught this reporting process. See Appendix 1

The school has also developed an ethical reporting system of any cyber bullying related incidents. See Appendix 2. The school also has a Behaviour Management Policy and a Student Welfare policy.

1. **Appropriate Use of Resources**
Information Communication Technology (ICT) is a wonderful tool for learning. The use of the ICT however, is a privilege, not a right and inappropriate use could result in the loss of this privilege. The Agreement applies to all devices that access the Internet and/or store information electronically.

2. **Damage**
Vandalism or damage to ICT, either deliberate or through neglect will result in cancellation of all privileges and the possibility of replacing damaged items. Vandalism is defined as any malicious attempt to harm or destroy equipment or data of another user, Primary School ICT hardware and software and computing rooms. This includes the transmission of computer viruses, theft of hardware and software.

3. **Accessing Inappropriate Material**
Students will not use the ICT to access material that is inappropriate, profane or obscene (pornography) that advocates illegal acts, or that advocates violence or discrimination towards other people. If a student mistakenly accesses inappropriate material, she/he should immediately inform the supervising teacher. This will protect the student against a claim that such access was intentional.

4. **Chat Rooms/ Newsgroups/ Messaging**
Students are not permitted to use instant messaging or social networking sites during the school day.

5. **Good Cyber-Citizenship**
- Students are expected to abide by the generally accepted rules of network etiquette when using Emails or other messaging systems. These include:
- Being polite. Do not get abusive in your messages to others.
- Use appropriate language. Do not swear, or use any inappropriate language.
- Not revealing your personal address or phone number, or the address or phone number of the Primary School or members of the Primary School community.

- Sit at the correct height to allow your elbows to be bent at right angles and your wrists straight. Your hands and wrist must clear the desk and keyboard, with only your fingers touching the keys. Take a break every 30 minutes of use.

7. Storage of Work
Students are responsible for the careful storage and backing up of their own work. The Primary School accepts no responsibility for files lost or altered due to problems with our infrastructure or hardware. Hard drives (MacBook) or cloud storage (Google Drive) may be treated like school lockers in that Staff may review files and communications to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files stored on their MacBook are private.

8. No Expectation of Privacy
The school retains control, custody and supervision of all computers, networks and Internet services owned or leased by the school. The school reserves the right to monitor all computer and Internet activity by students. Students have no expectation of privacy in their use of school computers, including email and stored files.

9. Cyberbullying and Defamation
The Police Force defines cyberbullying as “the use of email, instant messaging, chat rooms, pagers, cell phones or other forms of information technology to deliberately harass, threaten, or intimidate someone.”

Australian defamation law dictates that a person is guilty of defamation when: “a person who 'publishes' and assertion of fact or a comment that: Injures - or, importantly, is 'likely' to injure -the personal, professional, trade or business reputation of an individual or a company: Exposes them to ridicule; or Cause people to avoid them.”

Sacred Heart Catholic Parish Primary School recognises that the majority of cyberbullying cases occur outside of its controlled network. However to ensure that students and parents are aware of cyberbullying and the correct actions to take, this policy includes protection for its own name, crest, students and teacher.

If a case of cyberbullying affects a student outside of the school's boundaries the following course of action should be taken:
- The student immediately informs his/her parents/carers;
- The student immediately informs the school;
- The abuse is reported to the website owner or webmaster;
- If the concern is considered very serious then the police should be informed immediately.
A case of cyberbullying/defamation against SACRED HEART staff member or the Primary School occurs if:

- Information about a staff member including their name is placed on a public website without the permission of the staff member;
- The Sacred Heart Catholic Parish Primary School name or crest is published on a public website without the written permission of the Principal.

The Sacred Heart Catholic Parish Primary School will not tolerate students using ICT to bully or harass others. Students found engaging in such activities will be dealt with in the strongest possible terms.

Annual cybersafety sessions are conducted for students, staff and parents.

10. Downloading Etiquette
Students will not download large files unless it is absolutely necessary, Check with your teacher before proceeding. Each year level will have a specified amount that students in that year level can download.

11. Copyright
Students must not copy data found on the Internet. Plagiarism is taking the ideas or writings of others and presenting them as if they were your own. In completing assignments, references to such sources should be provided in the bibliography.

SACRED HEART CATHOLIC PARISH PRIMARY SCHOOL

1:1 Program

Outlines & Expectations

TEACHERS
Outline & Expectations

1. Appropriate Use of Resources

Information Communication Technology (ICT) is a wonderful tool for learning. The use of the ICT however, is a privilege, not a right and inappropriate use could result in the loss of this privilege. The Agreement applies to all devices that access the Internet and/or store information electronically.

2. Damage

Vandalism or damage to ICT, either deliberate or through neglect will result in cancellation of all privileges and the possibility of replacing damaged items. Vandalism is defined as any malicious attempt to harm or destroy equipment or data of another user, Primary School ICT hardware and software and computing rooms. This includes the transmission of computer viruses, theft of hardware and software.

3. Accessing Inappropriate Material

Teachers will not use the ICT to access material that is inappropriate, profane or obscene (pornography) that advocates illegal acts, or that advocates violence or discrimination towards other people. If a teacher mistakenly accesses inappropriate material, s/he should immediately inform the ICT Manager. This will protect the teacher against a claim that such access was intentional.

4. Chat Rooms / News Groups / Messaging

Teachers are not permitted to use instant messaging or social networking on school equipment.

5. Good Cyber Citizenship

Positive online behaviour is the ability to develop positive, appropriate and constructive online relationships with peers and family in a variety of mediums.

Teachers are expected to abide by the generally accepted rules of network etiquette when using Emails or other messaging systems. These include:
- Be polite. Do not get abusive in your messages to others.
- Use appropriate language. Do not swear, or use any inappropriate language.
- Not revealing your personal address or phone number, or the address or phone number of the Primary School or members of the Primary School community.
- Not using the network a way that causes disruption or harm to other users.
- Not using Primary School resources to spam or mass mail others.
- Not injuring the reputation of the school or those within the school community.
- Not using the Internet to harass or bully others.
- Not using the Internet to impersonate someone.
- Not use or knowingly access inappropriate digital images, audio and video.

6. Occupational Health & Safety

Sacred Heart Catholic Parish Primary School encourages all users to read Tips for Laptop Users OH&S Policy. Additionally, all users should consider the following:
- When using the laptop, place it on a table never on the floor.
• Never place the laptop on your lap, as the transmission from the laptop may be harmful to sensitive organs.
• Sit at the correct height to allow your elbows to be bent at right angles and your wrists straight. Your hands and wrist must clear the desk and keyboard, with only your fingers touching the keys. Take a break every 30 minutes of use.

7. Storage of Work

Teachers are responsible for the careful storage and backing up of their own work. The Primary School accepts no responsibility for files lost or altered due to problems with our infrastructure or hardware. Hard drives (MacBook) or cloud storage (Google Drive) may be treated like school lockers in that Staff may review files and communications to maintain system integrity and ensure that users are using the system responsibly. **Users should not expect that files stored on their MacBook are private.**

8. No Expectation of Privacy

The school retains control, custody and supervision of all computers, networks and Internet services owned by the school. The school reserves the right to monitor all computer and Internet activity by teachers.

Teachers have no expectation of privacy in their use of school computers, including email and stored files.

9. Cyberbullying and Defamation

The Police Force defines cyberbullying as:

“**The use of e-mail, instant messaging, chat rooms, pagers, cell phones or other forms of information technology to deliberately harass, threaten, or intimidate someone.**”

Australian defamation law dictates that a person is guilty of defamation when:

“A person who publishes and assertion of fact or a comment that:
Injures - or, importantly, is likely to injure - the personal, professional, trade or business reputation of an individual or a company: Exposes them to ridicule; or cause people to avoid them.”

Sacred Heart Catholic Parish Primary School recognises that the majority of cyberbullying cases occur outside of its controlled network. However, to ensure that teachers are aware of cyberbullying and the correct actions to take, this policy includes protection for its own name, crest, students and teacher.

If a case of cyberbullying affects a student outside of the school's boundaries, the following course of action should be taken:
• The student immediately informs his/her parents/carers;
• The student immediately informs the school;
• The abuse is reported to the website owner or webmaster;
• If the concern is considered very serious then the police should be informed immediately.

A case of cyberbullying/defamation against Sacred Heart Catholic Parish Primary School staff member or the Primary School occurs if:
• A video or image of a Sacred Heart Catholic Parish Primary School staff member is placed on a public website without the permission of the staff member;
• Information about a staff member including their name is placed on a public website without the permission of the staff member;
• The **Sacred Heart Catholic Parish Primary School** name or crest is published on a public website without the written permission of the Principal.

Sacred Heart Catholic Parish Primary School will not tolerate students or teachers using ICT to bully or harass others. Students or Teachers found engaging in such activities will be dealt with in the strongest possible terms.

Annual cyber safety sessions are conducted for all students, staff and parents.

### 10. Downloading Etiquette

Teachers will not download large files unless it is absolutely necessary, check with your ICT Manager before proceeding.

### 11. Copyright

Teachers must not copy data found on the Internet. Plagiarism is taking the ideas or writings of others and presenting them as if they were your own. In completing assignments, references to such sources should be provided in the bibliography.

• Teachers will respect the rights of copyright holders. Infringing copyright is illegal. Copyright infringement occurs when you inappropriately reproduce a work that is protected by copyright. Copyright includes but is not limited to:
  - Copying software owned by the Primary School or by using Primary School resources;
  - Downloading software without direct approval of the ICT Manager;
  - Copying images, clipart or art works;
  - Using Primary School ICT resources to obtain program cracks;
  - Installing software on MacBooks;
  - Downloading or copying music from the Internet or CD.

### 12. Protection of Identity

Teachers should make every effort to protect their identity, the identity of their students and the identity of the school through email and the Internet. That information includes name, age, address, phone number, photographs or names. Identity theft is a growing problem and it is better to safeguard your information. Note: All IDs should be represented with an avatar.

### 13. Personal Devices

• Personal devices are not to be brought to school unless the Sacred Heart Catholic Parish Primary School ICT Manager has given permission, e.g., iPads. Any personal devices brought to school are not the responsibility of Sacred Heart Catholic Parish Primary School.

• Videos/images of Sacred Heart Catholic Parish Primary School name/crest/staff and students are not to be stored on personal electronic devices.

### 14. Passwords

Teachers have been given a password and it is your responsibility to keep it secret and remember it. If anyone finds out your password, it is your responsibility to change this immediately. At no stage should you ever allow another individual’s login and password. In the event that you need to change your password, please report it to the ICT Manager through the Problem Ticket Portal.
15. Email

The use of the Sacred Heart Catholic Parish Primary School email is for learning and teaching purposes only. Chain letters of any kind and spam are prohibited. Chain letters are defined as any e-mail message asking you to pass information or messages on to other individuals or groups via e-mail. E-mail rules should be observed. In general, only messages that one would communicate to the recipient in person should be written. Only approved mail programs may be used for student mail. School email addresses are not to be given to ANY websites, companies, or other third parties without the explicit permission of the ICT Manager or Curriculum Coordinator. Only school-related attachments may be sent on the school e-mail system.

16. MacBooks

Sacred Heart Catholic Parish Primary School provided MacBooks must be in a teacher’s possession or secured in a locked classroom at all times. They must not be lent out. MacBook’s must be carried and transported appropriately on school grounds in their approved cases at all times. No food or drinks should be in the vicinity of the MacBook’s. MacBook’s should be handled with respect and care. MacBook’s are not to be written on, to have stickers applied to them, or to be defaced in any way. Don’t remove, move or write on the identification sticker on your MacBook.

17. Network Access

Teachers must not make any attempt to access network information that is not open to the public. The utilization of proxy avoidance IP numbers and programs is strictly prohibited. Teachers may not use the school network for personal or private business reasons. Teachers are not to knowingly degrade or disrupt online services. This includes tampering with computer hardware or software, vandalizing data, installing computer viruses, attempting to gain access to restricted or unauthorized network services, or violating copyright laws. Sacred Heart Catholic Parish Primary School is not responsible for damaged or lost data transferred through our network or stored on laptops, computers, or our file servers.

18. File Sharing

File sharing is the public or private sharing of computer data or space. Any program that creates a point-to-point connection between two or more computing devices for the purpose of sharing data is considered file sharing. File sharing of any kind is prohibited both at school and at home. The only exception to this is when it is a specific assignment given by the ICT coordinator. The only exception for file sharing is the use of GAFE and AirDrop for educational purposes only.

19. Downloading and Loading of Software

All installed software must be a legally licensed copy. The downloading of music files, video files, games, etc. through the school's network is absolutely prohibited unless it is part of an assigned, in-class activity. The school reserves the right to remove any software that has been loaded onto the computer that impedes the educational purpose of the laptop program. Copyrighted movies may not be "ripped" from DVDs and placed on the laptops nor may copyrighted movies be downloaded to the laptops from the Internet. Only commercial videos (such as television programs) legally purchased from the iTunes music store or another like entity may be downloaded to the laptops.
20. Screensavers and Desktops

School rules and the Sacred Heart Catholic Parish Primary School emblem are to be used only. Inappropriate or copyrighted media may not be used as a screensaver. MacBook provided desktops and family photos or created images are encouraged. Presence of weapons, inappropriate images, inappropriate language, alcohol, drug, gang related symbols or pictures, will result in disciplinary actions.

21. Internet Use

The Internet is a rich and valuable source of information for education. Inappropriate materials are available on the Internet and are strictly prohibited. These materials include items of a sexual or pornographic nature, extremist or militant materials, gambling, depictions of violence, images that are intended to be abusive or harassing, etc.

Teachers must not access, display, or store this type of material. Teachers are required to give proper credit to all Internet sources used in academic assignments, whether quoted or summarized. This includes all forms of media on the Internet, such as graphics, movies, music, and text. Plagiarism includes the use of any information obtained from the Internet that is not properly cited. Plagiarism of Internet resources will be treated in the same manner as any other incidences of plagiarism. If a teacher accidentally accesses a website that contains obscene, pornographic or otherwise offensive material, he/she is to notify the ICT Coordinator as quickly as possible so that such sites can be blocked from further access. This is not merely a request; it is a responsibility.

22. Consequences

The school reserves the right to enforce appropriate consequences for the violation of any section of the ICT Policy. Such consequences could include the loss of privileges on a laptop, the loss of the use of the computer for an amount of time determined by the administration and members of the Technology Department, possible disciplinary action, and possible legal action.

These consequences apply to all teachers with a MacBook at Sacred Heart Catholic Parish Primary School.

Computers with illegal or inappropriate software or materials on them will be reformatted or “reimaged.” This may be increased for repeat violations. In the case of repeated laptop abuse and/or damages, the school has the right to revoke the use of the school’s laptop.

Teachers are to report any known violations of this ICT Policy to appropriate administrative staff members. Random checks of teacher laptops will be conducted throughout the year to ensure that these policies are being followed.

Sacred Heart Catholic Parish Primary School takes no responsibility for activities conducted on school computers and laptops or materials stored on computers, laptops, or the school’s network.

If you are unsure about the application of any of the above rules, check with your ICT teacher first.
